

# HICKS BEEF BULL SALE

**Wednesday 6th September 2023  
1.00pm HOLBROOK**

**SALE VIDEOS**  
[www.hicksbeef.com.au](http://www.hicksbeef.com.au)  
[www.auctionsplus.com.au](http://www.auctionsplus.com.au)

LOT 1 - ABC S690

LOT 6 - ABC S693

LOT 9 - ABC S852

LOT 14 - ABC S953

LOT 15 - ABC S1181

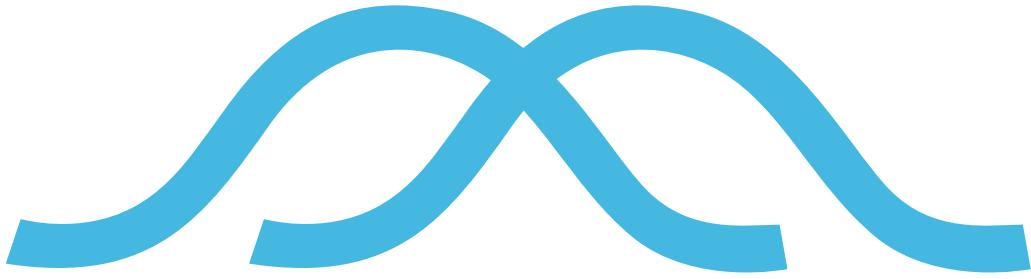

LOT 23 - ABC S1062

LOT 24 - ABC S1288

LOT 29 - ABC S1197

## HICKS BEEF BULL SALE

**Wednesday 6th September 2023**

**Inspections from 10.00am  
Sale Commences: 1.00pm**

Auction in the sale barn with video presentation of each lot. All lots will be penned for your inspection on sale day. We encourage you to call and arrange an inspection prior to sale day.

**44 Black Composite Bulls  
14 Black Composite Yearling Bulls  
15 Red Composite Bulls  
5 Red Composite Yearling Bulls  
17 Red Angus Bulls**

**Andrew Hicks**

**M:** 0427 147 258

**Tom Hicks**

**M:** 0448 796 124

**Email:** tom@hicksbeef.com.au or aahicks@bigpond.com

**Website:** [www.hicksbeef.com.au](http://www.hicksbeef.com.au) (visit for link to video of sale bulls)

**CHILDREN ARE NOT PERMITTED IN THE SALE BULL PENS.**

**AuctionsPlus**

**This sale is interfaced with AuctionsPlus**

Our sale is conducted live online in real time; remote bidders can bid on computers at their location. The remote bid is immediately transferred to the auction ring.

**Bidding is only available to registered AuctionsPlus users**

You must register at least 24 hours prior to sale with AuctionsPlus.

**Phone:** 02 9262 4222 **W:** [www.auctionsplus.com.au](http://www.auctionsplus.com.au)

**Phil Gledhill 0407 078 094**

**Jenni O'Sullivan 0428 222 080**

**2% REBATE  
to Outside Agents**

We have poor mobile phone reception at our sale ring. Please call Phil from Elders to organise phone bidding.

# RED ANGUS GROUP BREEDPLAN

**ESTIMATED BREEDING VALUES (EBVs)** The EBV is the best estimate of an animal's genetic merit for that trait.

**ACCURACY:** Accuracy is based on the amount of performance information available on the animal and its close relatives - particularly the number of progeny analysed. The higher the accuracy value the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or its relatives. Even though an EBV with a low accuracy may change in the future, it is still the best estimate of an animal's genetic merit for that trait.

**Gestation Length EBV (days)** is an estimate of the time from conception to the birth of the calf and is based on ASI and hand mating records. Lower (negative) GL EBVs indicate shorter gestation length and therefore easier calving and increased growth after birth.

**Birth Weight EBV (kg)** is based on the measured birth weight of progeny, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

**200-Day Growth EBV (kg)** is calculated from the weight of progeny taken between 80 and 300 days of age. Values are adjusted to 200 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

**400-Day Weight EBV (kg)** is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

**600-Day Weight EBV (kg)** is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

**Mature Cow Weight EBV (kg)** is based on the cow weight when the calf is weighed for weaning, adjusted to 5 years of age. This EBV is an estimate of the genetic difference in cow weight at 5 years of age and is an indicator of growth at later ages and potential feed maintenance requirements of the females in the breeding herd. Steer breeders wishing to grow animals out to a larger weight may also use the Mature Cow Weight EBV.

**Milk EBV (kg)** is an estimate of an animal's milking ability. For sires, this EBV indicates the effect of the daughter's milking ability, inherited from the sire, on the 200-day weights of her calves. For dams, it indicates her milking ability.

**Scrotal Size EBV (cm)** This EBV is an estimate of an animal's genetic merit for scrotal size. There is also a small negative correlation with age of puberty in female progeny and therefore selection for increased scrotal size will result in reduced age at calving of female progeny.

**Carcase Weight EBV (kg)** is based on abattoir carcase records and is an indicator of the genetic differences in carcase weight at the standard age of 650 days.

**Eye Muscle Area EBV (sq cm)** This EBV estimates genetic differences in eye muscle area at the 12/13th rib site of a 300 kg dressed carcase. More positive EBVs indicate better muscling on animals. Sires with relatively higher EMA EBVs are expected to produce better-muscled and higher percentage yielding progeny at the same carcase weight than will sires with lower EMA EBVs.

**Rib Fat and Rump Fat EBVs (mm)** are calculated from measurements of subcutaneous fat depth at the 12/13th rib site and the P8 rump site and are adjusted to a standard 300 kg carcase. These EBVs are indicators of the genetic differences in fat distribution on a standard 300 kg carcase. Sires with low, or negative, fat EBVs are expected to produce leaner progeny at any particular carcase weight than will sires with higher EBVs.

**Retail Beef Yield EBV (%)** indicates genetic differences between animals for retail yield percentage in a standard 300 kg carcase. Sires with larger EBVs are expected to produce progeny with higher yielding carcasses.

**Intramuscular Fat EBV (%)** is an estimate of the genetic difference in the percentage of intramuscular fat at the 12/13th rib site in a 300 kg carcase. Depending on market targets, larger more positive values are generally more favourable.

*For further information please contact the Red Angus Society or Red Angus BREEDPLAN.*

# ALL SALE BULLS GENOMICALLY ENHANCED FIGURES

**Adding a DNA test to your decision is like knowing...**

- ◆ 25+ calving ease scores
- ◆ 22 birth weights
- ◆ 25+ weaning weights
- ◆ 25+ yearling weights
- ◆ Stayability / productivity records on 15 daughters
- ◆ 6 carcass weights
- ◆ 10 marbling scores
- ◆ 8 ribeye area measurements

**All this from a test you can complete before you wean the calf.**

## MORE ACCURATE FIGURES = BETTER BUYING DECISIONS

### INDEPENDENT STRUCTURAL ASSESSMENT

#### How to Use The Beef Class Structural Assessment System

The Beef Class Structural Assessment System uses a 1-9 scoring system:

- A score of **5** is ideal (Note: Except for Temperament where a Score of 1 is ideal);
  - A score of **4 or 6** shows slight variation from ideal, but this indicates most animals. An animal scoring 4 or 6 would be acceptable in any breeding program;
  - A score of **3 or 7** shows greater variation but would be acceptable in most commercial programs.
- However, seedstock producers should be vigilant and understand that this score indicates greater variation from ideal;
- A score of **2 or 8** are low scoring animals and should be looked at closely before purchasing;
  - A score of **1 or 9** should not be catalogued and are considered culs.

Liam Cardile on 0409 572 570

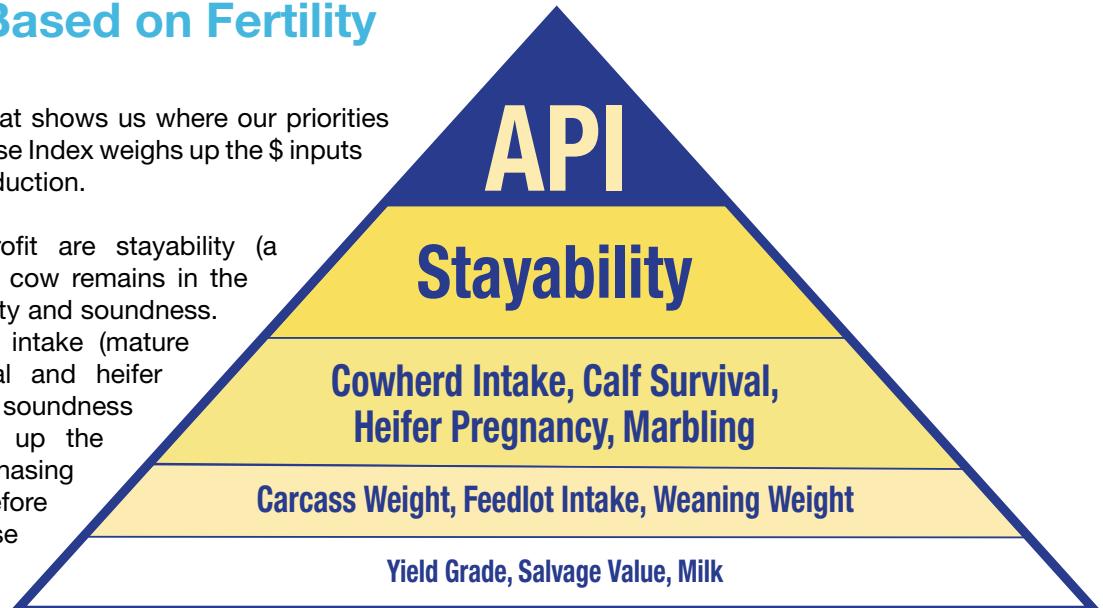

## API – Profit Based on Fertility

API – the profit index that shows us where our priorities should be. The All Purpose Index weighs up the \$ inputs and outputs of beef production.

The big drivers of profit are stayability (a measure of how long a cow remains in the herd) a measure of fertility and soundness.

Followed by cow herd intake (mature cow size), calf survival and heifer pregnancy. Yes, fertility, soundness and live calves make up the priority for breeders chasing higher returns, before weaning weight, carcass weight and feedlot intake.

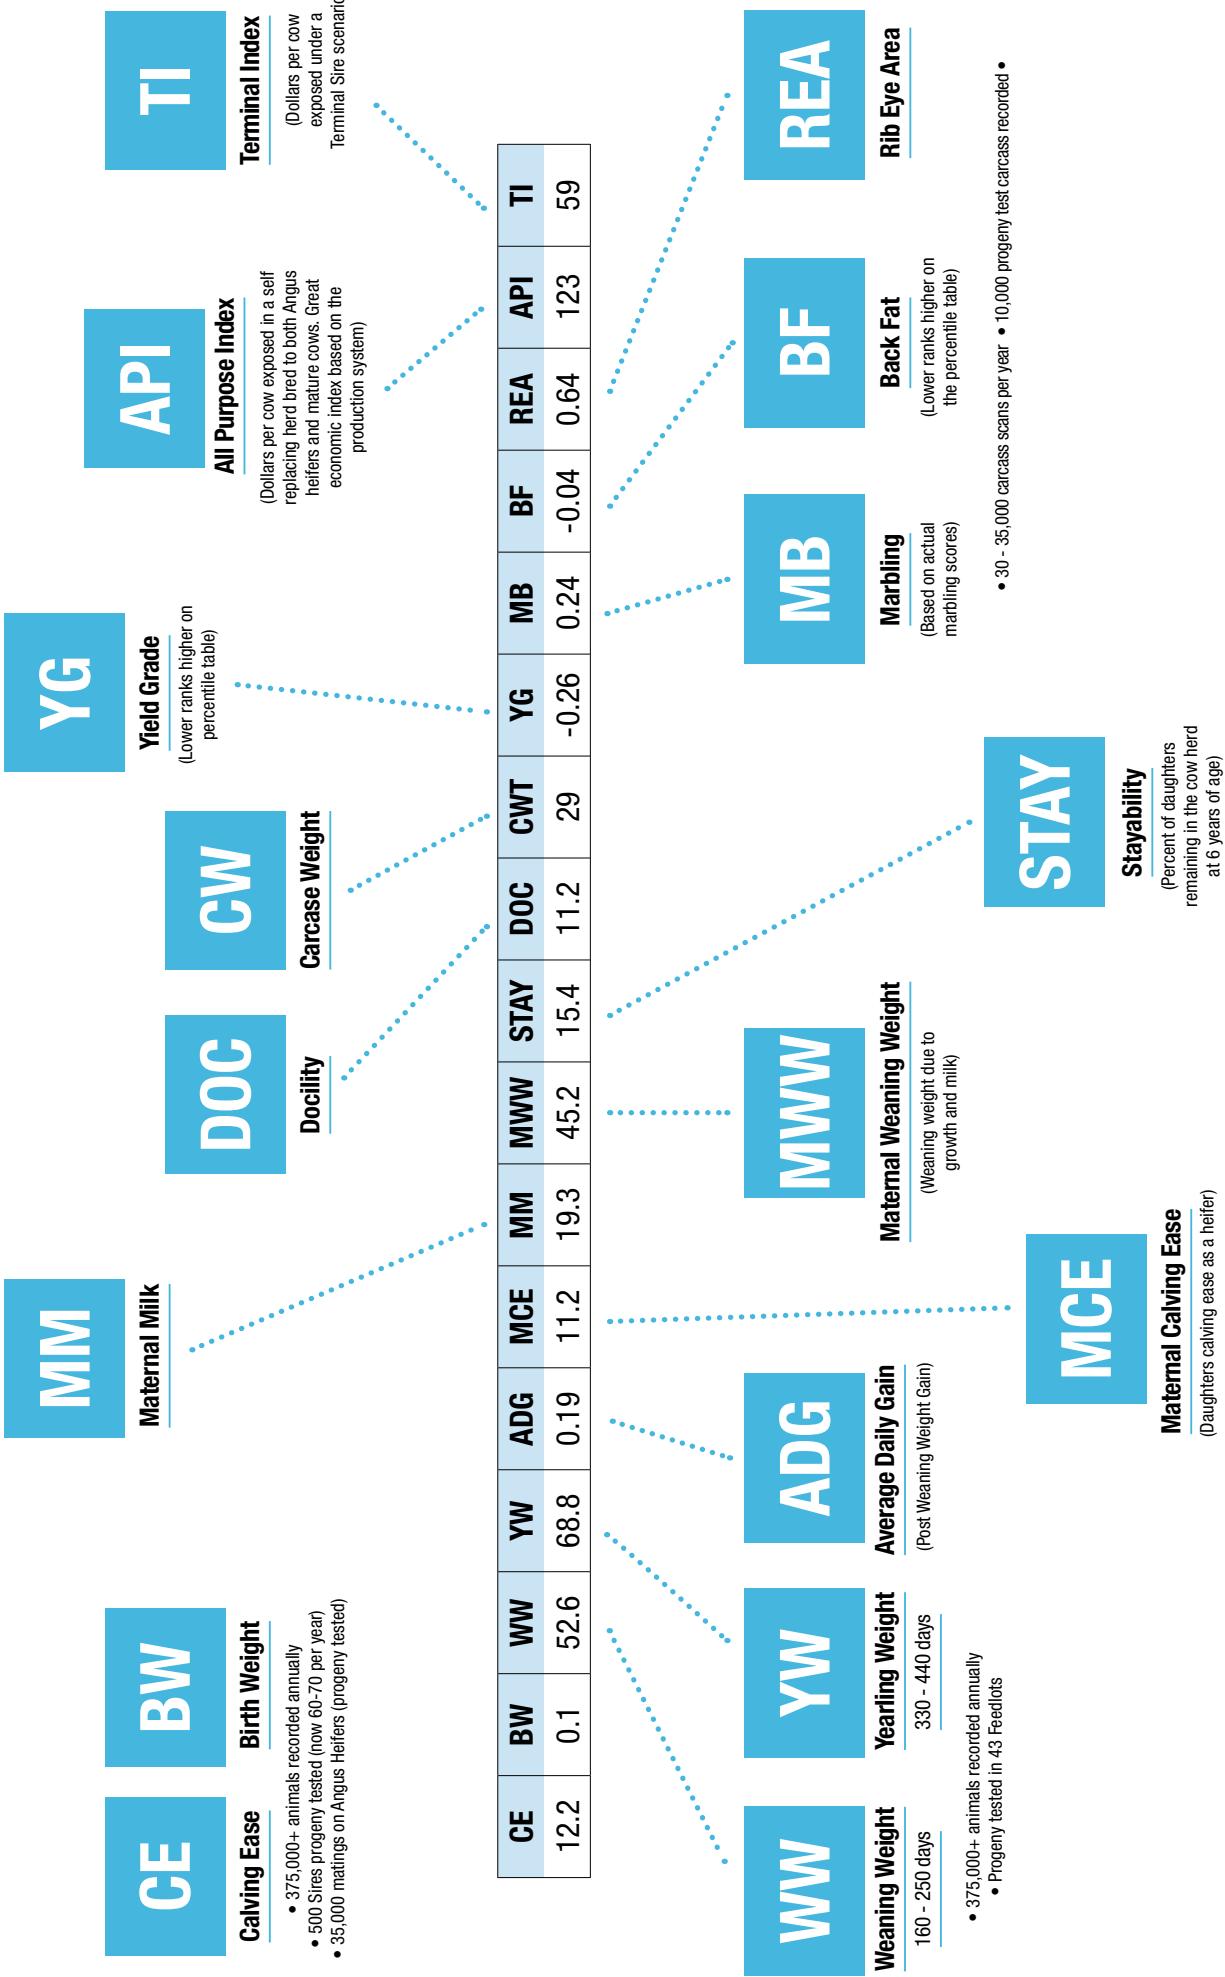

### Vet Check Information

All bulls presented in the auction have been fertility tested by the Holbrook Veterinary Clinic. They have passed an examination of their reproductive tract, which includes a testicular palpation, internal reproductive organ palpation and penis check.

General health and structure are part of the course for this veterinary examination. Service ability testing and semen assessment have not been performed and we encourage all purchases to integrate their new bulls into the risk mitigation strategy that they employ back home.

# QUICK GUIDE TO EPDs

## CONSISTENCY OF PERFORMANCE IN AUSTRALIA'S LARGEST FEEDLOT STEER TRIAL GRAND CHAMPION PEN OF STEERS 2 OUT OF THE PAST 3 YEARS

**2023 GRAND CHAMPION PEN OF STEERS TEAM 1**  
5th PLACE TEAM 2

**2021 GRAND CHAMPION PEN OF STEERS TEAM 1**  
4th PLACE TEAM 2  
FIRST FEEDLOT PERFORMANCE  
SECOND CARCASE PERFORMANCE

**2022 FIRST FEEDLOT PERFORMANCE**  
3rd PLACE TEAM 1

Over 10 years - Consistent performance

Grand Champions 3 times, Reserve Grand Champions, Feedlot Performance winners, many placings in the top 10 teams.

Top performers in the most profitable analysis.

# Hicks Beef Bull Checklist

- ✓ **Moderate Birth** - we aim to have birth weights lighter than breed average
- ✓ **Specialist Heifer Bulls** - in all our breeds, top 20% calving ease
- ✓ **Weight Gains** - up in the top 20% of breed for 200 & 400 day weights
- ✓ **Mature Weights Less** than breed average, large cows need more maintenance
- ✓ **Carcase** - we believe muscle and yield will be demanded by industry and that marbling is an important trait
- ✓ **Temperament** - is important, we cull heavily on temperament, sale bulls and

COWS

- ✓ **Structurally Correct** - we feel that we are competent enough to structurally assess bulls, but we know you want an independent professional. We use Liam Cardile from CTC to assess all our sale bulls for feet, legs, sheath and testicles
- ✓ **Tested** - for known genetic abnormalities.
- ✓ **Tested negative** - Pestivirus carriers.

MILWILLAH MARBLE BAR J53

**HICKS MARBLE BAR N30**

HICKS RED PATRICIA K28

TE MANIA EMPEROR E343

**HICKS BLACK AMY M17**

HICKS AMY K11

A great, moderate, thick N30m son, one of the most widely used Red Angus sires in Australian herds, used over Red Angus, Tropical Composites, Shorthorn and Santa Gertrudis. N30's popularity is based on his great balanced numbers across all the traits, with breed leading marbling and calving ease. S106 is an attractive bull that covers most of the bases, with excellent All Purpose Index, top 2%, and Terminal Index top 1%, in the US hybrid percentiles (the percentiles of all breeds). Our IGS figures are genetically enhanced for greater accuracy.

ANDRAS NEW DIRECTION R240  
**HICKS TOP RECORD N16**  
 HICKS TOP RECORD L117

A moderate, thick bull with growth and carcase, by our breed leading growth and carcase sire Oracle Q39. We often associate growth with height, but the ultimate is to get weight into cattle without too much leg, makes for the weight that you get paid for without the later maturity pattern. This bull on Breedplan has lighter birth and average calving ease with top 10% growth and top 1% Supermarket Index.

HICKS RED DESIRE F519

Andrew gives S75 three out of three stars for appearance. He ranks in the top three bulls of his year for Supermarket Index in Australia. Field notes say "one of the great ones". Moderate, thick, and with some of the best carcase figures in the breed. His pedigree shows one of our best cows - M104, a Red Label dam that excels in fertility with 5 calves all born within the same fortnight every year, including our sire Black Prophet Q74. S75 starts with lower-than-average birth weight, followed by top 5% 400day growth, and finishes off with some of the best carcase data of the breed. Hicks Beef reserves the right to collect semen, retaining quarter semen share for within herd use.

**HICKS GOLDEN BOOM J109**

HICKS GOLDEN BOOM F566

A pedigree that has G A R Prophet and a double cross of Te Mania Red Label is an indicator of a well-balanced bull for moderate calving ease, good growth and carcase. This is reflected in his figures. He covers most of the economic traits with a top 10% Supermarket Index value.

# NOTES

## DIRECTIONS

**DELIVERY:** Stock awaiting delivery will be held free of charge for up to 14 days after the sale at the buyer's risk.

**GUARANTEE:** We have always provided full replacement guarantee against fertility and genetic faults. It is important that we are contacted as soon as possible to rectify any problem.

**FEEDING POLICY:** We believe that overfeeding can cause many problems to bulls long and short term. All our cattle are run in large paddocks under commercial cattle conditions. All Breedplan figures are assessed under these conditions usually from mobs of over 100 cows and calves.

As we sell our bulls younger than most studs we feel it is important that they are in suitable condition to withstand the rigours of their first season. The bulls are given a supplementary ration for 10 weeks, out in the paddock still in their calving groups.

All bulls are treated identically with no preferential treatment for the top bulls. We have sold bulls to many areas of Australia and have had no complaints about their mobility or fertility.

### Terms and Conditions of Sale

1. Subject to reserve prices, the highest bidder shall be the purchaser, and in the event of any dispute arising it shall be settled by the Auctioneer, unless one of the claimants will advance the bidding above the disputed bid, in which case the lot or lots shall be put up again.
2. The purchaser shall deposit the whole or any part of the purchase money if required at any time during the sale.
3. All stock shall be paid for in cash immediately on conclusion of sale, and prior to delivery, but, in the event of delivery being made, or possession obtained by the purchaser or his representative prior to the payment of the purchase money, or any cheque given on account of same, the purchaser shall hold the stock as trustee only for the vendor.
4. All stock shall be at the risk of the purchaser upon the fall of the hammer.
5. No warranty is given by the Auctioneers with any lot, and, as all lots are available for inspection previous to the commencement of the sale, the same are sold with all faults, if any.

The Auctioneers shall not be responsible for any errors or omissions in any particular appearing in the description or pedigrees of any lot for sale, and no error, omission, or misdescription in such particulars or pedigrees shall invalidate the sale or be made the subject of any claim for compensation.

### Directions from the South

Take the Woomargama exit to the old Hume Highway. Turn right onto Annandayle Road.

### Directions from the North

From Holbrook turn east down the Jingellic Road, travel 8.1kms then turn right into Annandayle Road and we are 2.8kms on the left.
